I'm sorry I always talk about dogs. I once
got a book called "A Big Guide to
New Dog Breeds" from my mother as a
birthday present. It's a book of dogs. It
has a ton of dogs. I wonder if there's an
animal that can have even more various
appearances than dogs. There really are
so many types. Right now, the breed I
want to play with the most is the
Samoyedo. It's a white, fluffy doggy.

A black and white manga panel depicting a tense moment. In the upper half, a young man with shaggy hair and a dark jacket looks back over his shoulder with a serious expression. Behind him, a young woman with long hair and a dark top also looks back. In the lower half, a close-up of a young man with long, light-colored hair and a dark jacket. He has a determined, slightly angry expression with his mouth slightly open. The background shows a wooden fence and some foliage.
